WANT WILL PROBATED HERE.

Heirs of Late Justice Richardson Try to Escape Inheritance Tax. The will of the late Chief Justice William A. Richardson, of the U. S. Court of Appeals, was involved in oral arguments before the Supreme Court of the United States yesterday. The testator described himself in the instrument as a resident and citizen of Cambridge, Mass., in order to make certain of having administration of his estate take place there rather than in the District of Columbia, although much of his property was situated here. But to escape the Massachusetts inheritance tax, his heirs are trying to have the estate settled under District of Columbia laws on the ground that the testator was a resident here for many years.

Applications to take the examination have been received from 123 trainees in the District. The position will pay \$900 a year. Four of the nurses will be white and one colored.

As this is the first time such an examination has been held in the District some doubt exists as to the nature of the examination. It is expected that it will be on the general subjects of anatomy, physiology, hygiene, sanitation, dietetics, nursing, first aid, elementary symptoms, diagnosis, prognosis, experience in general nursing and special training in district, social service or school nursing.

Von Bernstorff Says Germany Will Not Invade Canada.

New York, Oct. 28.—Germany will not invade Canada. She will not try to seize any territory in either of the Americas, no matter what happens on the other side. This statement was made today by Count Johann von Bernstorff, German Ambassador to the United States.

"The Monroe Doctrine is safe from violation as far as Germany is concerned. Don't make any mistake as to Germany's attitude in this connection. Germany has no desire to come across the Atlantic. There is no reason for this country being disturbed about that."

SALOONS MAY SELL STOCK.

Loss of License Will Not Mean Total Loss to Proprietor. Saloonkeepers who lose their license after November 1 when the Jones Works excise law goes into effect, will not suffer a total loss of their stock. Under the law they are permitted to dispose of it.

Both successful and unsuccessful applicants for renewal of licenses will be notified by the Excise Board Saturday, and those who are ordered to close up must do so at midnight. This does not prevent them from selling their stock outright to another dealer.

There are 409 saloons doing business in Washington at the present time. Their number must be reduced to 200 by November 1. Although it is necessary only for the board to drop 109 licenses to get the number down to 300, more than that number will be dropped off.

November 1 marks not only the beginning of the new liquor license law, but the miscellaneous year as well. On or before that date licenses must be obtained for practically every business in the District requiring a license.

Columbia—"Polygamist."

"Are all men natural polygamists?" This is the "open question" from which the new play by Harvey O'Higgins and Harriet Ford, "Polygamist," coming to the Columbia next week, takes its title. The play is a starting study of marriage in America, dealing with large forces at work for the disrupting of the American home. It presents conditions of reality, and of today, and in some cases deals with real people. It is claimed to be the most important work of the authors of "The Marriage of Kitty." Pol—"Fifty Miles from Boston."

Next week the Pol Players are to be seen in their first musical comedy production of the fall season. The management has selected "Fifty Miles from Boston" for the highly successful George M. Cohan entertainment that has both the elements of good drama and lively musical diversion. The heroine is a little postmistress in a New England village. The postoffice is robbed and the hero succeeds in exposing the thief, who turns out to be the girl's suitor brother. Rather than see him away, the girl assumes responsibility for the theft herself. But in the end the hero succeeds in saving both.

It was in "Fifty Miles from Boston" that the famous "Harrigan" song was first sung, and it will be given by Carl Brickert at Pol's next week, accompanied by a chorus which Mr. Pol will send here for the week. This will mark the musical comedy debuts in Washington both of Mr. Brickert and Jane Morgan.

AMBASSADOR CHINDA, OF JAPAN.

In response to a protest lodged by Ambassador Chinda, of Japan, government officials have taken steps to have the Oiler, German cruiser, expelled from the port of Honolulu, where she recently put in for repairs. The Japanese pointed out that the repairs to the Oiler were now complete and under international law she is no longer entitled to remain in the port. It is understood that Jap men of war are waiting for her outside the harbor.

BELASCO.

Marie Tempest in "The Marriage of Kitty."

It was perhaps inevitable that Marie Tempest should revive her greatest success, "The Marriage of Kitty," on this her farewell visit to America, and the reception accorded the delightful comedy at the Belasco Theater last night evinced that it has lost none of its vitality in the years that have elapsed since its first performance, and it is still capable of affording a pleasurable evening's entertainment.

The story of this capital play is embellished with a multitude of sprightly and humorous episodes, the characters are thoroughly effective, and there is a constant flow of smart talk. It was designed by Miss Tempest's useful husband, a dozen and more years ago to display her abilities as a comedienne and admirably serves the purpose, for as vivacious Kitty Silvester, the orphan girl with extravagant tastes and no means to provide for them, Miss Tempest is quite effective.

The comedy is so well known that it seems gratuitous to repeat even an outline of the story. The rich uncle of Sir Reginald Belaise dies and leaves him a vast fortune on condition that he is married by a certain date, and the lady of his choice must be neither a widow nor a widow. As it happens, Sir Reginald loves Mme. De Semiano, who possesses both of the undesirable qualifications, and so, in order to obtain the fortune, he is forced to marry her.

The French farce comedy, "Madam President," with Fannie Ward as the star, comes to the National Theater next week. This farce was produced originally at the Palais Royal in Paris, where it ran for a year. It duplicated this record in Berlin and Vienna. It ran for six months at the Garrick Theater, New York City. Subsequently it was seen in London under the title "Who's the Lady?" It may be referred to as the farce comedy success of six countries and four languages.

While Miss Ward was in London this past summer she received a flattering offer to play the role in the London production and to go for a tour of Australia in the farce. Miss Ward called her manager, Charles Dillingham, regarding the matter. She received in reply the following: "Impossible. Could not find another Golette to equal you." Golette is the part Miss Ward plays in "Madam President."

At Moore's Strand Theater the coming week marks the first local showing of the famed Paramount program, prominently the finest array of photographic features ever projected upon the screen. On Sunday, Monday, Tuesday and Wednesday Daniel Frohman presents John Barrymore in a five-part film version of H. A. Du Souchet's comedy, "The Man from Mexico." Thursday, Friday and Saturday see Jesse L. Lasky Company presents Edward G. Robinson in the comedy drama, "Ready Money," which exploits a novel theme, the principal motive being that the hero will always secure money. Supplementary features for the week include the showing of Keystone comedies, motion pictures of the day's happenings within the war zone and other features.

The production is under the personal direction of William Elliott, who it may be remarked in passing, is a son-in-law to David Belasco. It is but natural to expect that we shall see a fine production, with the well-known care and attention to detail that marks the productions that are staged by anyone who has been connected with such a past master of the art.
